

AccessHE Online Launch Event

Tuesday 31 October, 17:00-19:00 | Graduate Centre, London Metropolitan University
166-220 Holloway Rd, London N7 8DB

AccessHE recognises that to engage with young people, going online is a great place to start. Over the last year AccessHE has been working with university members to develop a suite of short, interactive online courses aimed at young people aged 13+ designed to give them a flavour of higher education.

At this launch event guests will be able to access and explore the portfolio of short courses ranging from Chemistry (using the popular Minecraft platform), to Sociology; Mathematics to Photography as well as learning more about studying and applying for higher education courses.

The event will be of particular interest to staff from schools, colleges and higher education outreach teams. Moreover, we are keen to welcome NCOP practitioners who will discover how these free courses could be used as valuable outreach tools both in and outside of the classroom to highlight different aspects of higher education.
