<b>Session summary and aims</b>	<p>The Hackney Young Lecturers is a youth activism and skills development project for Year 12 &amp; 13 students in Hackney. The project will help young people in Hackney to become agents of positive societal change by developing lectures on issues that are important to them and their peers in the borough. They will receive expert training in communication, presentation and lecturing to empower them to design, develop and deliver university-style lectures. It will culminate in a final live event where they will present their lectures to an audience made up of friends, family and Hackney organisations.
